Internet, schools & nursery schools

Internet and multimedia

You can currently use one of six computers (see photo) free of charge. If you want to write your own texts, if you want to scan materials, if you want to print materials, or if you want to use our wifi, you may do so at no extra cost.

Welcome!

Special offers for schools and nursery schools

The town library co-operates very closely with local schools and nursery schools. Teachers and nursery teachers can bring their groups for a guided tour of the library, we have so-called 'picture book cinema' for the little ones, as well as media boxes that focus on a particular topic. (In the picture you can see a group of young school children dressed as 'reading pirates')

Events

Grown-ups

For grown-ups we have regular readings, lectures and exhibitions. Very popular among our clients are the literary breakfast and the literary wine tasting, two events in which culinary and literary worlds meet. (In the photo you can see Rainer Rudloff, a well-known actor and lecturer during one of his regular visits)

Children

For children of any age there are regular programmes that are intended for reading promotion. The very young ones – the toddlers, or 'Lüttje Wichte' – are introduced to the world of books by means of picture books. In cooperation with local schools we organise reading sessions and theatre performances suitable for children. (Photo: 'pirates' listening attentively)
